As founder of VucoWorld, our Business is a licensed company not associated with any other American corporation. Some investors of Vuuzle TV were gifted a token named Vuco. Those Coins are still valid as a placeholder. However, all Vuco tokens will need to be legally connected to VucoWorld by way of some simple transactions.

Those transactions will include:

1. Verified Investor (Qualified investor form)
2. VucoWorld (Compliance documentation)
3. Meta Mask account set up or another wallet
4. Cryptocaptrades set up www.cryptocaptrades.com
5. Copy of Contract you signed with the founder for your gifted shares

Without Full compliance of this documentation, a wallet set up to do future transactions where VucoWorld can be sent out to include income profits, you will be at risk of losing your invested interest, or your gifted interest in VucoWorld.

Most importantly, if you did not send in your contract between the founder and yourself for Vuco Gifted shares, and may have already received those shares, those shares will be deemed not valid without a signed contract. Please remember VucoWorld is a completely different company not affiliated with Vuuzle TV in any way.
